🌻 !Available styles

9 Dec 2025

This is just an internal note to remind us what styles are available in the Garden.

Columns

Text displayed in column 1.

Text displayed in column 2.

Heading styles

- `.rounded` - Rounded box with light background and left border
- `.rounded-left` - Left border with subtle gradient background
- `.banner` - Full-width banner with white text on colored background
- `{.hero}` - Hero heading (light teal band, sans font). Use: `# Heading {.hero}`

Hero and h1–h3 use modern sans font (HTML and PDF).

Examples:

Heading 1 rounded

Causal Mapping: the evaluator's engine room

Marshalling causal evidence at scale for Contribution Analysis and beyond.

Box styles

Use `-- {.type-modifiers}` syntax. Use `<mark>label</mark>` for highlighted lead labels (e.g. `<mark>CM Win:</mark>`).

Showcase callouts:

- `--{.panel}` ... `--` - Card/panel (intro blocks)
- `--{.step}` ... `--` - Step card (numbered process sections). Use headings (`### Title`) or list-style (`1)`, `1.`, `a.`, `b.`, etc.); each gets a numbered circle.
- `--{.card}` ... `--` - Generic card (bordered, subtle shadow)
- `--{.stat}` ... `--` - Stat/KPI block (big number + label, centred)
- `--{.testimonial}` ... `--` - Quote block (italic body, attribution in last para)
- `--{.cta}` ... `--` - Call-to-action (centred, prominent border)
- `--{.alert}` ... `--` - Alert/warning (yellow accent)

Basic callouts: `info`, `warning`, `tip`, `note`

Modifiers: `narrow`, `right`, `center`, `heavy`, `left-border`, `rounded`, `inverted`
