Some Case Studies

Chapter contents.

10 Dec 2025

Here are some examples of work with Causal Map and causal mapping, and also with Qualia interviews.

PAGES IN THIS CHAPTER

AI-assisted causal mapping. Uncovering causal pathways with INTRAC

We partnered with INTRAC on a project for the SCC (Strengthening Civil Society) programme. This programme is led by a consortium of four organisations: PAX, ABAAD, DefendDefenders and Amnesty International Netherlands, with INTRAC serving as the MEL partner. INTRAC is a non-profit organisation with a deep commitment to understanding and improving the practice of civil society worldwide.

Can AI accurately map causal claims - A validation study

_Summarised from "AI-assisted causal mapping: a validation study" by Steve Powell and Gabriele Caldas Cabral.

DUOC UC. Evaluating Gender Equity in STEM with AI-Driven Interviews

Using AI to facilitate feedback on the learning experiences of doctoral students

The Causal Map team has conducted a trial of an innovative approach to securing feedback from students using online open-ended interviews conducted by the app QualiaInterviews, which uses generative AI (gen-AI), followed by a second use of gen-AI within the app **Causal Map** to semi-automate causal coding of the narrative transcripts thereby generated. The trial was conducted with students registered on the doctorate in policy research and practice (DPRP) at the **University of Bath.**
